The Michigan Shorthorn Association is one of the most progressive in the United States. The breeders have brought into the state the very best herd sires that have been available. The results of this can be seen by the increased interest in Shorthorns and Polled Shorthorns throughout the state. In addition Michigan breeders have competed successfully in shows and sales on the national level this past year, further proving the value of their product.

This year the Michigan Futurity is the strongest in its history. There are bulls and females in this sale that can go into the strongest herd of the breed. This is a real advantage to persons interested in starting with the breed in this state as they can be assured they are buying the very best.

Once again we are indebted to the Dick Braman Family for making their facilities available to the Association for this sale. I urge you to come as early as possible in order that you may inspect not only the Braman foundation herd but those herds of breeders in the surrounding area. I'm sure you will be impressed with what you see.

If I or any member of my staff can be of assistance to you, please do not hesitate to call on us.

Sincerely,

CAGWIN CATTLE SERVICES, INC.
